Ayy

I got a bag and I elevate it

Plain Jane bust down watch

I know they diss but I'm way too lit

I cannot name drop none of my ops

I went up and them niggas still in the same spot

Heard a boy got hit, left in the same spot

Trap still up and we in the same spot

I got control of this shit like GameStop

All the VVS on me like raindrops

When I getting to the racks the game stop

She likes the niggas with money so me my brodies be fucking the same thots

Now we be up in the mansion but we still post up in the hood on the same block

Big bullets, y'all get hit with the same shots

I keep a Phan' in the back cuz my name hot

Hood fav, all you niggas in trouble

Told my money I'll put nothing above you

Now I'm balling like I'm up in the bubble

When you winning everybody gon love you

Too drippy, all my coups getting double

My bitch drippy, pussy leaving a puddle

Wrist icy, like it came with the shovel

Bag with me and it ain't getting fumbled

And I gotta keep one in the head

You stay ready, you ain't gotta get ready

Your body built with the big belly

Shooters 30, they be holding the grips steady

I can't go back and forth, I got racks on me

Hit a jugg and post up in the trap all week

These niggas pockets is tapped, on E

With the water, I got the whole tap on me

I'm in the foreign I'm moving through

Get in my way and we shooting through you

Niggas be acting like nothing could happen to 'em

We the ones that'll do it you

Money talking and it ain't getting through to you

Yeah they taking they was never a fact

I got something that'll make them want backup

Dior runners when I'm running the racks up

I got a bag and I elevate it

Plain Jane bust down watch

I know they diss but I'm way too lit

I cannot name drop none of my ops

I went up and them niggas still in the same spot

Heard a boy got hit, left in the same spot

Trap still up and we in the same spot

I got control of this shit like GameStop
