

Mental

Jay Critch

I just thought that I let you know what's been on my mental
Every time we don't speak you dress up post that pic on the 'gr
am

Cuz you know I miss you, make it hard for a nigga
Shawty from the city got a bag just like the city girls
Shout out to the city girls, she a high siddity girl
Every time we fuck it make her toes and her fingers curl
When you get some time off of work then its lit uhh
Trini girl, you had that vibe and I can't find it nowhere
Stay by my side promise you won't go nowhere
My heart to cold I don't think you should go there

Girl, I want you naked, I want you bareback
I would never tell you lies give you bare facts
I just poured my lean up in pair of [?]
She look at me with them eyes and I stare back
Baby, you ease my mind like the marijuana
I fuck with you cuz you on my timin'
Where I'm from crazy its full of drama
Handle the pressure made some diamonds
Watch the money pile up
Get her in the room I flip her like its Benihana
You my little muse I dress you up in all designer
She going set the mood then the drugs take us higher
Thought she had a boss but her last nigga fired
Why would this fall apart, pussy wetter than a fuckin' waterpar
k
Touching on your body I know where to start
Cruise 'round in a Wraith yea you wit a star
If I gotta try and go replace you it's going be hard
I can't let no other bitch get close to my heart
I forgot to say that pussy wet like Noah's ark
Put Cartier all on your wrist and have you livin' large

I just thought that I let you know what's been on my mental
Every time we don't speak you dress up post that pic on the 'gr
am

Cuz you know I miss you, make it hard for a nigga
Shawty from the city got a bag just like the city girls

Every time we fuck it make her toes and her fingers curl
When you get some time off of work then its lit uhh
Caribbean girl, you had that vibe and I can't find it nowhere
Stay by my side promise you won't go nowhere
My heart to cold I don't think you should go there
