

# Regular Type

Jay Critch

I got a baddie not the regular type

I got a baddie not the regular type  
Not the regular

I knew that when I met her  
Spend a bag it's whatever  
Spend a bag get whatever you like  
Make a movie on a regular night  
I put diamonds on your left and your right  
So you shine when you step in the light

You know I'm all invested in mine  
Better go pick up that phone when I call you  
Better go pick up that phone when I call you  
Shawty said she want it all but that's all you  
Shawty said she want it all but that's all you  
Put that pussy on me make me fall out  
Don't you know I hate it when we fall out  
You know every time we gon' fall through  
Had to speak to you when I saw you  
You could get all the time on my schedule  
Got me like goddamn I'ma bless you  
Got me like goddamn I'ma bless you  
Let me show you what a vet do  
Shopping spree yeah I'll buy you something special  
Ain't gotta say it but you know something special  
Girl you know I rock with you heavy metal  
I was broke and I got my shit together  
You was down and now I see you doing better  
I was thinking we could run it up together  
I was thinking we could run it up together  
You know them other bitches hating but don't sweat it  
Picture me and you coming through Givenchy sweaters  
If it rain on you get you double umbrellas  
Put you on that plane when it's rain, change the weather  
And my bitch a go getter  
So I had to go get her  
Make a show like Coachella  
I've been getting more cheddar  
Girl you fine like wine ain't chateau  
We on fire just heating up like the kettle  
I was a dog but she took me to the kennel  
Ease my mind you know I'm straight from the ghetto

I got a baddie not the regular type  
Not the regular  
I knew that when I met her  
Spend a bag it's whatever  
Spend a bag get whatever you like  
Make a movie on a regular night  
I put diamonds on your left and your right  
So you shine when you step in the light
