Jay Electronica

People change up on you
And when they change up on you like that
Something has happened in the relationship
My mother used to have a saying
"Milk once soured, never sweet again"
I don't know whether that's a good saying where love is concern
ed
You might wanna talk to her, and ask her
Tell her you notice these things
And you wanna know... what's happened
And, she might just tell you
"I don't want you no more"
And you gon' have to say, "What can I do?
Time to move on..."
And I'ma tell you, brother - it takes two to love
And, when things start turning all the way around
You have to... if you can patch it? Fine, but don't be no fool
If it's changed up on you, well...
It's somebody out there that will love you

Stay down, all the time, when you want to
Through time, making time when you want to
I see through everything that you want to

Yeah... (Uh...)
You can run the whole thang if you want to (Uh...)
(You can run the whole thang if you want...)

Baby, tell me your truth... (Yeah... ah-ah...)
Baby, tell me you're true (Yeah...)
Stay down, all the time, when you want to (I see it)
Tell me all the time what you won't do (Take... off...)
