

New Illuminati

Jay Electronica

I love this record
Domino, domino, domino
I only spot a few Blacks the higher I go...

I caught 'em lying on the news
It's all good, I'm just trying on my shoes, not a bead of sweat
One of the shortest passages in the King James version
Of the bible we all know is, "Jesus Wept"
So like the Lord say, "I'ma make the song cry"
Him and 'Ye told you pussy niggas watch the throne, why?
I got the swagger and the profits
The view of an Astronaut from NASA in a rocket
Yeah, plus I brung the cross with me
That's the beard of Muhammad and the holy cross with me
Quick fast like Ramadan
I'm mastered, I'm a don, broke fast with Tony embassy
Last at [?], deep like the mind of Farrakhan
The motherfucking rap phenomenon
Shout out to Diddy Combs, my nigga for life (What up)
It's the New World Order, the theories was right
Killuminati it's the new Illuminati
Catch you outside of your lobby and give you that wasabi
Nigga wallahi
Catch a body lyrically and literally, everything is a probably
And it'd take you forever to try and stop me
Busting bottles, fucking models and ducking paparazzi
Killuminati, and fuck Bill O'Reilly and Rudy Giuliani
Nigga we the new illuminati
