

Can't Sit Still

Jay Ferguson

I can't sit still, can't stay in one place
I need a thrill to keep me in the race
I need distraction, I need extraction
I need traction, I want some action

Some new sensation
Instant gratification
Total saturation
Digital medication

I've got a girlfriend, she's just like me
She's a little firecracker, she keeps things moving, baby
When I want a flame, she strikes the match
We're both a little insane, we're a perfect match

Some new sensation, yeah, yeah
Instant gratification, oh yeah
Total saturation, yeah, yeah
Digital medication

Some new sensation, got to have it
Instant gratification, it's my habit
Total saturation
Digital medication

Just slow down
Just slow down
Can't slow down
Can't slow down

I've got a girlfriend, she's just like me
She's a little firecracker, she keeps things moving, baby
When I want a flame, she strikes the match
We're both a little insane, we're a perfect match

Some new sensation
Instant gratification
Total saturation
Digital medication

We're a perfect match
We're a perfect match
We're a perfect match
We're a perfect match
