

# It's a Jungle Out There

Jay Ferguson

I got my dog to protect me  
I've got a fence around my property  
Twenty-four cameras watching over me  
Twenty-four cameras

It's a jungle out there, yeah, yeah, yeah, yeah, yeah  
It's a jungle out there, yeah, yeah, yeah, yeah, yeah

Put it in the water, put it in the air  
Make it hotter, no one's gonna care  
Sell your soul for a piece of the pie  
Watch your back, reach for the sky

Yeah, yeah, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah, yeah

It's out there  
Out there  
Gotta prepare  
It's a jungle

I watch it all on my widescreen  
I hear it all on my best stream  
Is my neighbor there looking at me?  
What's he gonna hear and what's he gonna see?

It's a jungle out there  
Gotta be prepared  
It's a jungle out there  
It's a family affair

I remember when my world was softer  
I remember when the sky was still blue  
I remember when the lines were still open  
Between me and you

I got my gun to protect me out there  
I got a fence around my property  
Twenty-four cameras watching over me out there  
Twenty-four cameras

It's a jungle out there, yeah, yeah, yeah, yeah  
It's a jungle out there, yeah, yeah, yeah, yeah
