

Million \$

Jay Ferguson

I've been doin' this town all night
But it just don't feel like I'm doin' it right
Might have tried too much too soon
Now I'm running out of reasons and I'm running out of room

I gotta shake this small town feeling
I gotta find me a heart worth stealing
One more million dollar love affair
Give me one more million dollar love affair

Here it comes again

Now I don't need a rock and roll queen
Or a brown-eyed beauty in a fashion magazine
I'm in a hard fast driving mood
And there's only one thing that's gonna do me any good

I gotta shake this small town feeling
I gotta find me a heart worth stealing
One more million dollar love affair
Give me one more million dollar love affair

But I know she waits for me somewhere

One more
One more
Give me one more
One more
Just give me one more
Won't you give me one more million dollar love affair?

Everybody sing now
One more
Million dollar love affair (Oh yeah)
One more
Million dollar love affair (Million dollar love affair)
One more (Yeah)
Million dollar love affair (One more, one more)
One more (Million)
Million dollar love affair
