

## Missing Persons

Jay Ferguson

Lonely corner on a lonely street  
Who really knows who a stranger might meet?  
Last stop in this lonely town  
Too many cases of lost and found

Missing persons drownin' in the moonlight  
Missing persons standin' in the streetlight  
Missing persons, girl, I'm missin' you tonight

Too many mirrors in this cold hotel  
They've seen it all, but they just don't tell  
Why they come or where they go  
Or how they feel when the sun gets low

Missing persons drownin' in the moonlight  
Missing persons standin' in the streetlight  
Missing persons, girl, I'm missin' you

So I light another cigarette to chase the time  
Too many memories, too much wine  
Trains callin' in the night alone  
It sounds like the whole world is tryin' to go home

Missing persons drownin' in the moonlight  
Missing persons are standin' in the streetlight  
Missing persons, girl, I'm missin' you  
Girl, I'm missin' you tonight  
Missing persons drownin' in the moonlight  
Oh, see them standin' in the streetlight  
Missing persons, I'm missin' you tonight

Girl, I'm missin' you tonight
