

## As Good as It Gets

Jay-Jay Johanson

Such a funny little song That I heard you hum at night Like a strange lullaby That made me fall asleep

I tried to write it down Just as soon as I'm awake But it didn't came out right Better stick to counting sheep

Is this, is this as good as it gets That's just what I ask myself Is, this, is this as good as it gets Who can answer that

I recall a childhood dream I was standing on a roof But I didn't dare to jump 'Cause perhaps I couldn't fly

But you pushed me and I fell And I folded out my wings And I never touched the ground It was not time to say goodbye

Is this, is this, is this, is this, is this Is this as good as it gets That's just what I ask myself Is this, is this as good as it gets Who can answer that

Is this, is this as good as it gets That's just what I ask myself Is this, is this as good as it gets Who can answer that

Is this, is this as good as it gets That's just what I ask myself Is this, is this as good as it gets Who can answer that
