

# Wonderful Combat

Jay-Jay Johanson

You shot it away  
The dangerous missile of yours  
Launched as a flirt  
And I am the target

You sure made a hit  
I'm shocked by the blastwave it caused  
This wonderful combat  
My resistance has resigned

This wonderful combat  
Will this battle make you mine  
Lovely strategy  
You are a robot

Programmed to wipe me out  
You spread your mines  
They get off wherever I go  
If I don't compute

Your impact will make me explode  
It's an emergency  
This wonderful combat  
My resistance has resigned

This wonderful combat  
Will this battle make you mine  
Lovely strategy
