On top of the running guy is the flying guy
On top of him is Jay Park, the guy you all know
Since I was born, my style was hot, everyone was jealous
I just came to get my party on

I have the curse of having women problems because I have so many charms
They try to rub against me like rice, Jeonju 1
No choice but to live like a play boy
Rich enough to always pay like it's natural
Don't really have greed for money but it chases after me every night
I come to life and all the pretty girls are konbanwa
Follow me to my room, get it hotter than a sauna
I'll get to you in order
ABCDEF

I said hahahaha I laugh every day
Nya nya nya nya you all cry every day
Jaebum, please, don't be too successful, they all ask
I'm on a UFO and your plane is crashing
Yeah baby I'm the shit, the big one
I kept killing the beat so my name is Jaebum 2
My trendy music is worth gold
I live sweetly and your life is bitter
As if I win #1 every day, it's a party
If you didn't get the invite, bitch I'm sorry
Me and my crew boy we pop that champagne
Partying well is a skill too, we do the damn thang
Juniors wanna be like me, seniors acknowledge me
My skills get crazier at the mental hospital
I have everything, don't call me short
I'm not short, you all are just really tall
