

Legacy

Jay Park

I've always been a dream chaser
Shouts to Meek Mill
Since the day I was born
I haven't been able to sit still
Never weak willed always been real
I'll risk looking soft to avoid situations
where my homies could get killed
Small minded petty shit
Something we don't entertain
We do something lame
Live and learn
Do it never again
Then we teach game to one another
Because y'all my brothers
My actions reflect y'all
so I'll never move like a sucker
I'm slipping I'm falling
I can't get up
I know you'll catch me support me
and help me get up
Yeah this bullshit's whatever
I'll show nothing but love
Bitches money fame is cool
but it means nothing above
So let's enjoy it while it lasts
with the smiles and the laughter
comes sadness all black up
in from there's a Pastor
To the hoes and the bastards
the trolls and backstabbers
Never too late to change till you up
in your casket let's get it

Look up at the sky
Look down at the earth
I need you I need you right here
Are you down for the ride
Right next to me
For this legacy
I need you I need you right here
For this thing called life

Growth to me that's all that matters
Life's a game of Shoots and Ladders
Ups and downs OK
but I ain't moving backwards
I don't feed in to propaganda
Trying to anger me
so I can do some crazy shit
I don't believe it atheist
They want you riled up
until that you say Fuck the peace
NFL black listing Kaepernick
cause' he took a knee
What type of Fuck shit is that
In who do we trust?
Man I ain't even black

I just think it's unjust
Can't stand up for your beliefs nah
Not in their house
Drastic measures your family
they'll take food out of their mouths
In this society it's so easy to lose hope
Just know we got each other hold your hand
through the smoke let's go
This that shit that they don't wanna see
It starts with you and me
Let's go
What you leave behind use your energy
Yes not just mine or yours man
This our legacy

Look up at the sky
Look down at the earth
I need you I need you right here
Are you down for the ride
Right next to me
For this legacy
I need you I need you right here
For this thing called life

Who can I lean on
when the world is on my shoulders
Baby I need someone
I can build with & grow older

Cause life is much colder
people done got bolder
Since Trump's been in office
it seems that we lost it
Take a look around now
you seeing what it's cost us
People in positions of power
really imposters
Using propaganda for profit
Then politicians put that paper
in their back pocket
What's the difference between
government & black market?
They hate blacks
but love the black market
Shooting blacks like we damn targets
That's not progress the US been a mess
We just got conscious
I'mma preach cause it's never too late
We gotta teach fear is a direct
descendant of hate
I'm a Moor so I'm a direct
descendant of greats
So when I perform you
listen & I hope you relate aye
I got a solid intuition a lot of ambition
I'm looking at the
world through a clear cut vision
We gotta do better
let's change the way we eat
Let's change the way we live
And let's change the way
we treat each other
I talk to Pac like he a friend to me

I gotta do this for my legacy
