Hop in, driver you can take yo time  
Put that classic R&B on  
Po' you something you can sip on  
Cause we gon' get it on tonight

Champagne glasses on the door  
Baby you can get comfortable  
Don't worry I'll be good to you  
Get used to this like it's nothing new  
It's just us two on the road  
Driver put up the window please  
Baby girl come close to me  
The parties startin' in here tonight in the limousine  
We be dancin', we be movin' in the limousine  
Everybody feelin' good up in the limousine  
Where we nasty but we classy in the limousine

Girl you know how I get down  
Girl you know what's up

Girl you know what's up  
There no need to go to clubs

We got everything you want  
So baby girl lets have some fun  
Until the mornin' comes  
You and me have that neon glow  
Leather seats yeah they feel so smooth  
All we need is a stripper pole  
There's one thing I wanna know  
Are we gonna get it on baby
