

# Sex Trip

Jay Park

Your ass will go up and your face will go down  
Gray

You don't have to pack your bags  
But where we about to go  
It's our little secrets Baby  
Just for you to know oh  
Oh oh oh  
So get ready  
Cause we're about to take off  
Take off our clothes, uh uh  
We don't need no ticket for  
Where we about to go  
We can get there fast and  
We can take it slow

We don't need a car or train  
Bus or plane  
For where we about to go  
All we need is you and me  
Sex trip  
Sex trip  
Let's go all night  
Let's go all night  
Let go of your body and mine

Let's go baby back and forth  
I'd be falling from the sky Geronimo  
We can go in around me Make you scream some more  
Could be fucking like it's my job And I make it do  
Let our worlds collide girl  
Ooh show me how you ride girl  
We don't need no ticket for  
Where we about to go  
We can get there fast and then  
We can take it slow

We don't need a car or train  
Bus or plane  
For where we about to go  
All we need is you and me

Get you to the bed and we lift it off the ground  
Come into my world girl I'll show you around  
I'll go downtown, you go downtown
