

Twilight

Jay Park

(I need a Cha Cha beat boy)

Sometimes I wake up in the morning
And be like where the fuck am I
I see the buildings they be smoky
But man I ain't even H1GH

Up in the twilight
Mothafuckas they be gettin' down
Up in the twilight
Freedoms come with restrictions now
Up in the twilight
Happy faces with a dirty smile
Up in the twilight
Enemies be acting like your pal

So I calm my nerves with a cup of Henney
While the kids at war they be bustin' semis
No PMS but the blood flow heavy
And I believe what the news gon' tell me, ah yeah
It's sadistic they make up
Statistics to sway your opinion
Like rappers be making up
Lyrics like how they sell drugs
Committing these killings
But shit man I feel It, ooh
Wonder who made it this way
We fighting for crumbs
They get all the funds
They lying to us get
Caught and act dumb
Most of us just really
Don't give a fuck, yeah
I'm out here chasing the buck, yeah
I'm out here looking to fuck, yeah
I'm out here with all my homies
Among all these snakes
Don't know who to trust yeah
I'm just living day by day, I'm just
I'm just living day by day, I hope and pray
Now we all can find a way I pray
Now we all can find a way
Let's get it, ooh

Up in the twilight
Mothafuckas they be gettin' down
Up in the twilight
Freedoms come with restrictions now
Up in the twilight
Happy faces with a dirty smile
Up in the twilight
Enemies be acting like your pal

Woo, I got the bass

They provoking evil deeds
Untainted souls eventually
Get sucked into the machine
And come out acting holy
They rocking a Jesus piece

These chem trails
Got me kinda baked
In this Truman show
World is hella fake
H1GHR MUSIC about to levitate
Finna tag my name up
On heaven's gate
I'm a sinner nigga hold on wait
Osteen's whole collecting plate
Eating steak off of people's faith
Yeah wave your flag for the USA
Fuck nigga I'm not surprised

Trump wins and the Nazis rise
Until my brothers run up
On you guys
