Emergency

Jay Sean

How do you love someone, that's hurt so bad?
Even 911, ain't got a thing, to help them
How do you mend a wound that cuts straight through their heart?
And you can see that everything that's left, just ain't enough

I know we did some damage (I know)
Nobody else understands it (no, no)
Well baby, here's my shoulder you can lean on
And it's 24/7 (I know)
Whenever you need a friend, yeah (no, no)
I wait on standby and I won't ever leave

In case of emergency
Emergency, emergency
In case of emergency

How do you love someone who sees the past?
But can't seem to change or keep repeating mistakes from waybac
k
How do you love someone, who sees the bad in everything?
Drinking from a half-empty glass, thinking suicidal
Only ones we hurt are ourselves and I don't know why

I know we did some damage (I know)
Nobody else understands it (no, no)
Well baby, here's my shoulder you can lean on (you can lean on
me)
And it's 24/7 (I know)
Whenever you need a friend, yeah (whenever, baby)
I wait on standby and I won't ever leave

In case of emergency
Emergency, emergency
I'll be right there, in case of emergency

I wouldn't leave you in darkness
Weren't I always here when you needed me the most?
I will walk with you through all your flames
Step away from borderline, you know what's done is done
You don't need to worry, oh

In case of emergency
In case of emergency, yeah (you know I)
Emergency, emergency (baby, yeah yeah...)
In case of emergency, in case of emergency
