

Lonely

Jay Sean

I'm tired of living in this prison only getting older
You and I are living different why we never sober now
Is it over now, over
I don't wanna say we're done
But look the other way and run

Cause you knew and I knew
We still took a chance
I'm holding your heart while there's blood on my hands
I wasted your time shoulda made other plans
So please don't ever come back

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as broken as you

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as fucked up as you

I wanna make arrangements
Send you on a vacation
And I know if I came with
I'll be dealing with the same shit
Yeah, Yeah you probably be screaming in the lobby
Keep me up all night and you ain't even saying sorry
Sorry

You knew and I knew
We still took a chance
I'm holding your heart while there's blood on my hands
I wasted your time shoulda made other plans
So please don't ever come back

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as broken as you

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as fucked up as you

You knew and I knew
We still took a chance
I'm holding your heart while there's blood on my hands
I wasted your time shoulda made other plans
So please don't ever come back

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as broken as you

When you're lonely
When you're lonely
You think I don't feel the things that you do
Don't think that I'm not as fucked up as you

I'm tired of living in this prison only getting older
You and I are living different why we never sober now
Is it over now
