

# Message In A Bottle

Jay Sean

Life is wasted  
Cause your lips tasteless  
Love turns to hatred  
You came but I can't fake it  
And your eyes would never leave me  
And now they won't even meet me  
And your smile is lying  
My smile's slowly dying

Falling from the sky  
It's a lover's suicide  
I've explained the reasons why  
And you can find it in

A message in a bottle  
A message in a bottle  
A message in a bottle  
You can find it in  
A message in a bottle  
Hoping it'll find you  
A message in a bottle  
Said you can find it in  
A message

Your touch so cold  
This love song is so old  
Please don't ask me  
How this story unfolds  
You'll only wind me up  
And I'll say some shit  
That'll fire you up  
I'll be on my way  
And let fate decide if I'll see you again

Falling from the sky  
It's a lover's suicide  
I've explained the reasons why  
And you can find it in

A message in a bottle  
A message in a bottle  
A message in a bottle  
You can find it in  
A message in a bottle  
Hoping it'll find you  
A message in a bottle  
Said you can find it in  
A message

When I am home  
And when I wasn't strong  
My words carry on  
My words carry on  
Cause I couldn't say  
This all to your face  
Too many mistakes  
So I wrote it all

Put it in a bottle

A message in a bottle  
A message in a bottle  
A message in a bottle  
Said you can find it in  
A message in a bottle  
Hoping it'll find you  
A message in a bottle  
Said you can find it in  
A message
