

Richest Man

Jay Sean

Drowning in a thousand clouds
Don't know if I can take another thousand miles
There's times I wish that I could say "No"
And I don't wanna seem ungrateful
If only I could make them turn this plane around

I know I still got dreams to chase
Spending my time away, robbing me of my days with you

So take care for me (Yeah, yeah), wait there for me (Yeah, yeah)
So hard to be this far, just wanna skip this part
Whole lot of things I could buy
If only I could buy more time, with you (With you, with you)
Maybe I'd be the richest man in the room

How many friends do I need?
I'm selling time to these strangers
I can't buy memories, but I try 'cause it's human nature
It's hard to love what I do when it takes me away from you
It's bittersweet but it's true

'Cause I know I still got dreams to chase
Spending my time away, robbing me of my days with you (You, you)
)

So take care for me (Yeah, yeah), wait there for me (Yeah, yeah)
So hard to be this far, I just wanna skip this part
Whole lot of things I could buy
If only I could buy more time, with you (With you, with you)
Maybe I'd be the richest man in the room
So take care for me (Yeah, yeah), wait there for me (Yeah, yeah)
)
So hard to be this far, I just wanna skip this part
Whole lot of things I could buy
If only I could buy more time, with you (With you, with you)
Maybe I'd be the richest man in the room

Take care for me (Yeah)
Wait there for me
The richest man in the room
Oh yeah
