

# Runaway

Jay Sean

Run run  
Run run  
Just wanna run away  
Run run  
Just wanna run  
Run  
Run run

Babe give me a little space to breathe  
Can't you see you're smotherin' me  
You're like a leopard in a tree  
You're watchin' me, you're stalkin' me

Fear is a plague growin' through your veins  
Don't you infect me and make me feel the same  
I'm going numb from all the change

Release me Just release me

Hold on these walls are closing in on me I'm claustrophobic (Hold on)  
It's only insecurities girl and you know it (hold on)  
I need to tell you that girl you're just so (hold on [x2])

Sometimes I just wanna run away  
Sometimes I, I just wanna run  
Babe can I have just one day in peace  
Your constant naggin is killin' me  
You're like a record on repeat  
Your paranoia makes me I'll  
It's a disease that slowly kills  
Been here before but you do it still

Release me Just release me

Hold on these walls are closing in on me I'm claustrophobic (Hold on)  
It's only insecurities girl and you know it (hold on)  
I need to tell you that girl you're just so (hold on [x2])

Sometimes I just wanna run away  
Sometimes I, I just wanna run  
Baby hold on  
Hold on these walls are closing in on me I'm claustrophobic (Hold on)  
It's only insecurities girl and you know it (hold on)  
I need to tell you that girl you're just so (hold on)  
Girl you're just so (hold on)  
Girl you're just so (hold on)

Run, run (hold on)  
Run, run (hold on)  
Run, run (hold on)  
Run, run (hold on)
