

## Used to Love Her

Jay Sean

I was crazy man you wouldn't believe what I seen  
Got me reminiscing down too much memories  
The only girl you know that in my heart  
The one I almost gave that ring

But we were so young, mustve been only nineteen  
I guess the time wasn't right and we said some mean things  
A bitter day when I saw her face  
She was the one that I let get away

I remember when I used to love her, used to love her, used to l  
ove her  
I remember when I used to love her, used to love her, used to l  
ove her  
The time goes on, goes on, goes on  
The time goes on, goes on, goes on

There was talkin' in the room that everythings good  
There was no love lost between us I could'nt  
Believe how I truely noticed now that I wasn't over her

And now I'm like oh damn cause now I know man  
Lookin' back at all our pictures while I'm playing slow jamz  
What can I say, is that the way our situation worked out  
Wish there was sumthing I could do

Like stop the clock just lookin  
Go back and revisit our relationship and start brand new  
And do the things that I didn't do

I remember when I used to love her, used to love her, used to l  
ove her  
I remember when I used to love her, used to love her, used to l  
ove her  
The time goes on, goes on, goes on  
The time goes on, goes on, goes on

Man I know it's crazy  
She pulled me back with just a smile  
Now I feel these things inside  
I havent felt em' in a while  
And I'm sure that they will go away just a little time  
She'll always be that girl to me  
But now I gotta let her see

I used to love her...
