

You're content with what you have
With your hands tied behind your back
I know
You know

If I leave you alone
When you don't feel right
I know we'll sink for sure
I'll play your game once more
If you don't feel right
If you don't feel right

Sweetheart, listen
Make up your mind
Whatever helps you sleep
In the night
Pieces won't mend back together
That's a shame
You shaved off parts of me I must erase
Cause I know
You know
I know

If I leave you alone
When you don't feel right
I know we'll sink for sure
I'll play your game once more
If you don't feel right
If you don't feel right

If you don't feel right
