

Arranging your best words
Tying the knot
A brighter tomorrow
Could you take a shot?

Don't wanna slow down
Don't wanna forget
The company's fine
The feeling's alright

You've got your best friends
Searching for us
Static in their heads
Beating the night

Don't wanna slow down
Don't wanna forget
The company's fine
The feeling's alright
Don't wanna crawl down
Don't wanna jump in
The movement's enough

You've never had to follow through
You're singing out, still out of tune
You climb the ropes to second best
You'd do it all all over again
Again, again
