

Simple

Jay Som

Couldn't believe what you did
And you circled around once again
Oh, you created a simple world for two
Oh, I'll figure it out all for you

For you
For you
For you

I think about (Think about, think about)

I think about the undertow
Come too close, so powerful
Against the air (You think about)
Your way to rest (In undertow)
You listen more (Come to a close)
[?] (So powerful)

You listen more

You listen more
