Take It

Jay Som

My home it feels so small
I see the walls cave in
No time to make memories again

Replace my sad with happy
And take it out for a spin
The time on my wrist twitches, it knows what happens next

To the sky that's above:
Is that all that you got?
Take your thumb off my pulse
Remember me now

Really good at embarrassing me
You poke at flaws everybody can see
Well I heard the news
Good tidings to you

If my memory serves me right
You were easy to break

To the sky that's above:
Is that all that you got?
Take your thumb off my pulse
Remember me now

Is you that all that you have?
Is that all that you've got?
Is that all you have?
Is that all you've got?
