

## Love You

Jay Webb

Ain't nothin' left to do but love you, baby  
Servin' up what I'm cravin'  
Talkin' moonlight through the curtains  
Neck grabbin', toes curlin'  
So let me love you, baby  
If I can give it, you can take it all

You don't know you're perfect, do you? Just look in that mirror  
You a ten up outta ten, I wish you saw you like I see you  
And you don't know you're worth it, do you? Baby, I can hear it  
In that tone when you start talkin' to me 'bout the way you're  
feelin'

So sit back and relax in the seat, let me drive  
Don't nothing have you weighing on your pretty little mind, baby  
We'll make it back somewhere in the nick of time  
I got just the thing to help you unwind

Ain't nothin' left to do but love you, baby  
Servin' up what I'm cravin'  
Talkin' moonlight through the curtains  
Neck grabbin', toes curlin'  
So let me love you, baby  
If I can give it, you can take it all

Ain't nothin' left to do but  
Ain't nothin' left to do but  
Lay you down slow, hold my hand behind your head  
Tie up your hands and let you know  
Hold on to me, I'll make you crinkle up your toes  
What goes on between us, girl, nobody know

So sit back and relax in the seat, let me drive  
Don't nothing have you weighing on your pretty little mind, baby  
We'll make it back somewhere in the nick of time  
I got just the thing to help you unwind

Ain't nothin' left to do but love you, baby  
Servin' up what I'm cravin'  
Talkin' moonlight through the curtains  
Neck grabbin', toes curlin'  
So let me love you, baby  
If I can give it, you can take it all  
Ain't nothin' left to do but love you  
Ain't nothin' left to do but love you
