

Seein' Red

Jay Webb

Need a little bit of back road
Thick smoke, let go tonight
She took the color out for so long
From red to black and white

I'll find a way to blur my vision
Empty tank, the whiskey's hidden
Rear view full of bad decisions

Got the needle on the dash hitting red line
Watch her kissing on me, sipping on that red wine
She's the reason for my bloodshot red eyes
And a 90 proof sitting on my bedside
I guess I'm just pissed off
Dust trail, red tail, I sped off
So I smoke till I damn near get lost
And everything we never said
The sun's up again and I'm seein' red
(I'm seein', I'm seein' red)
(I'm seein', I'm seein' red)
I'm seein' red (I'm seein' red)
The sun's up again and I'm seein' red

Need a little bit to get drunk
Gon' burn my lungs tonight
She put the cold in the cold beer
Took the buzz out the neon lights

I'll find a way to blur my vision
Empty tank, the whiskey's hidden
Rear view full of bad decisions

Got the needle on the dash hitting red line
Watch her kissing on me, sipping on that red wine
She's the reason for my bloodshot red eyes
And a 90 proof sitting on my bedside
I guess I'm just pissed off
Dust trail, red tail, I sped off
So I smoke till I damn near get lost
And everything we never said
The sun's up again and I'm seein' red
(I'm seein', I'm seein' red)
(I'm seein', I'm seein' red)
I'm seein' red (I'm seein' red)

Got the needle on the dash hitting red line
Watch her kissing on me, sipping on that red wine
She's the reason for my bloodshot red eyes
And a 90 proof sitting on my bedside

(I'm seein', I'm seein' red)
(I'm seein', I'm seein' red)
I'm seein' red (I'm seein' red)

The sun's up again and I'm seein' red
