

Tatted My Face

Jay Webb

I freestyled the whole album
Came from the heart, whole album, ayy
I freestyled the whole album, yeah, yeah

I went and tatted my face
Way before the money or the fame came
Ooh, mama told me have faith and pray for the things that I can't change
So I prayed for this
Heaven sakes, God knows I was made for this
Give me a mic and a case, I'ma slay that shit
She got a house on the lake, I'ma lay that dick
I gotta watch what I say when I say that shit

Four wheel drive, drive all night on her
Dirt road, pussy feels so fine, don't it
Bad bitch, and she got a behind on her
I give her dick and she can't get her mind off it
Redneck prince, drinkin' from the bottom shit
Secret red lip while she takin' off her belt
And her head gets better with a little help
No regrets, you ain't gotta do it by yourself
Bring a friend, you ain't gotta do it by yourself
No, no, no
All head gets better with a little help
Oh, oh, oh

Yeah, yeah, mm-hm
I freestyled the whole album
Came from the heart, whole album

I went and tatted my face
Way before the money or the fame came
Ooh, mama told me have faith and pray for the things that I can't change
So I prayed for this
Heaven sakes, God knows I was made for this
Give me a mic and a case, I'ma slay that shit
She got a house on the lake, I'ma lay that dick
I gotta watch what I say when I say that shit

I been pissin' on the game
Tote a .45, I can really make it bang
Screws in tight on the new bed frame
Goin' all night, ain't a damn thing changed
I'm holdin' on tight to the bottle for the pain
I ain't gotta write, I just tell you what I think
Poppin' pills all night, drinkin' liquor all day
So I feel okay

I went and tatted my face
Way before the money or the fame came
Ooh, mama told me have faith and pray for the things that I can't change
So I prayed for this
Heaven sakes, God knows I was made for this
Give me a mic and a case, I'ma slay that shit
She got a house on the lake, I'ma lay that dick
I gotta watch what I say when I say that shit, hahaha
