

My Saviour

JAY1

Ever since I started music I've been dealing with pain
But I gotta stay composed, I know he's testing my faith
Devil wants to see me angry but I'm keeping restrained
The only time I'm feeling vexed is when I'm breaking them chains

I swear down, I'm feeling like I'm blessed and restored
Laughing with the mandem when I'm doing up tour
Thinking 'bout my life and steady thanking the Lord
And then I get on with my day knowing I'm feeling secured

These niggas hating on me
Grabbed a gun and tried to aim it at me
Doing up the devils work and making Satan happy
You can try your fucking best, come and put me to the test
But I promise you'll regret try and blaze it at me

All the weight be feeling heavy, Lord come take it from me
Broke niggas on my back because I'm making money
See I love my loving father 'cause he's patient on me
Jesus died for all my sins, he said just blame it on me

And I ain't ever gonna stop
Fully focused man, I'm aiming for the top
I see them hating man, they wanna see me flop
Know they wanna see me down, but I ain't stopping till I'm up, I swear
And I ain't ever gonna stop
Fully focused man, I'm aiming for the top
I see them hating man, they wanna see me flop
Know they wanna see me down, but I ain't stopping till I'm up, I swear

They know my style, they know I'm lit, they know proper G
I'm aiming high, they know I'm fly, there ain't no stopping me
I remember hella Christians was mocking me
But me I used to pray for them in private, God is watching me

They saw me struggle, they was laughing at me, chuckling
Carry on laughing G when the blessings keep on doubling
Jesus in my life, he never left, you know I'm stuck with him
Focus on the Bible, read it daily, I'm in love with it

I know I'm winning man, that shit be in name
I know I'm winning man, that be in my veins
I know I'm winning and I'll put them all to shame
Man I gotta move on point because this life isn't a game

I been down, now I'm up, Jesus save me from the fire
Sunday services, you know I'm signing with the choir
Everything be changing, massive thanks to the messiah
Bro I'm never gunna fail 'cause the devil is a liar

And I ain't ever gonna stop
Fully focused man, I'm aiming for the top
I see them hating man, they wanna see me flop
Know they wanna see me down, but I ain't stopping till I'm up, I swear
And I ain't ever gonna stop
Fully focused man, I'm aiming for the top
I see them hating man, they wanna see me flop

Know they wanna see me down, but I ain't stopping till I'm up, I swear
