

Ocean

JAY1

I'm flowing like the ocean now
I can take you there just say your down
You don't even have to make a sound
Ahhh

Backa big go take a bow
Love it when you move and make it bounce
You don't even have to make a sound
Ahhh
Me and you can find a way

Wait though,
What do you mean?
Let me hold you down for life because you're the one of my dreams
I've got my mat black Mercedes on me
If you ever want to flex then I'll give you the keys yeah...
Baby baby baby baby
Even though you drive me crazy
You have my heart I'll tell you daily (ahh)
Met her up on insta
Back so big she's got the figure
Staying rock solid never linger
Pull up in a Rover like I'm Simba

I'm flowing like the ocean now
I can take you there just say your down
You don't even have to make a sound
Ahhh

Backa big go take a bow
Love it when you move and make it bounce
You don't even have to make a sound
Ahhh
Me and you can find a way

Baby just say the word and I'm there
I don't want no one if you ain't there
Let me be your favourite girl
Oceans of the world
Say the word and I'm there
I don't want no one if you ain't there
Let me be your favourite girl
Oceans of the world

I'm flowing like the ocean now
I can take you there just say your down
You don't even have to make a sound
Ahhh

Backa big go take a bow
Love it when you move and make it bounce
You don't even have to make a sound
Ahhh
Me and you can find a way
