

Patiently

JAY1

Back then they didn't wanna fuck with a boy
But I waited patiently
One wave to the world and back
I don't wanna hear chat if it ain't the team
Told everybody in my squad man's got them
2021, just wait on me
I gotta carry this weight on me
Cah I know where it's taking me
Try doubt me when I was up and coming
Look at me now, man's up and bossy
Big JAY1, I don't need no plug in
Eight man deep when I step to the function
Eight man deep when I step to the party
Juice in my cup, kick back with a Barbie
Came with the mandem, left with a shawty
She was all good till I turned her naughty

B-b-bro, told me that I'm famous
Fuck that, still ten toes on the pavement
Back then it was beans on toast
Now the jewels on my neck come heavy and stainless
I was that broke boy chilling in the corner
I ain't ever been busy with a borer
Mash work and I kept it humble
Jumped in the stuj' and the money got taller
Jumped in the booth, place, bun up
How you gon' talk like a bad boy
In uni, in the end you're runner
I ain't got no time for these stunters
Slick, and I gotta stay Chris no Tucker
If you fuck with a bitch, that's your loss
JAY1 ah let burn quick, no Usher
Move on quick cah the body built tougher

Back then they didn't wanna fuck with a boy
But I waited patiently
One wave to the world and back
I don't wanna hear chat if it ain't the team
Told everybody in my squad man's got them
2021, just wait on me
I gotta carry this weight on me
Cah I know where it's taking me
Try doubt me when I was up and coming
Look at me now, man's up and bossy
Big JAY1, I don't need no plug in
Eight man deep when I step to the function
Eight man deep when I step to the party
Juice in my cup, kick back with a Barbie
Came with the mandem, left with a shawty
She was all good till I turned her naughty

I was low, had nothing, then I grinded, I'm rich now
C-c-come a long way Cal' Park
Grew up in a ends where doors get kicked down
Dem girls didn't wanna know Jason
Now I'm JAY1, all the gyallie want lips now
All chilling back stage with her tits out

Ain't getting nothing but dicked down
And that's nothing but facts
Got young Gs chilling on the block
And they don't do nothing but trap
Couple athlete friends on the track
And they don't do nothing but laps
Got-got friends that coulda been ballers
And they picked road and it's making me mad
I put in that work and I did it with gang

Back then they didn't wanna fuck with a boy
But I waited patiently
Patiently, p-patiently
I don't wanna hear chat if it ain't the team
Told everybody in my squad man's got them
2021, just wait on me
Wait on me, w-wait on me
Cah I know where it's taking me
