

Respectfully

JAY1

The ends is hot
But I still gotta chase my gwop
Might see man up but I came from blocks
I don't wanna go back so the grind don't stop
I'm doing this all for my family ain't gunna quit till the boys on top
How many times did I take that loss get back on my feet then move on job

Last year I gave too much
This year ain't settling for nothing but prof
I had fake friends in camp but it took me a minute to clock
Times were tough when the boy got burgled
Stayed with sis when I took that loss
Felt like shit man hit rock bottom...
But wait and see when I hit the top

So much pain in my heart I'm hiding
I don't wanna say it cos I'll come across negative
Niche got pain in his heart as well
But we use scripture becuh that's our medicine
Most of times I was keeping faith
But on my down days I was slyly questioning
When I'm wrestling, then he's stepping in
And when I kneel down you know I'm thanking him

God made me for a reason I gotta fulfill my destiny
Grind all day nonstop my guy
Work and build your legacy
Demons screaming when I'm sleeping
But I got Jesus protecting me
Who God bless no man can curse:
So I roll with the sword respectfully

So I roll with the sword respectfully
Who God bless no man can curse
So I roll with the sword respectfully

I got 2 miss calls from Buju
Drop me a text like jay start posting
Looked at my phone like bro are you joking
Fuck socials man I wanna do ghosting

I was sat in my crib lonely, felt depressed but didn't do moaning
Past 2 years jay never had hope, I was sat in my yard all day just toking

To my family, I love you... bare times I felt like dying
Held my head and I kept on trying
Swung my sword and I carried on fighting

3 man deep try burgle my yard
I was sat in my church and my head was burning
I was gunna put 50k on there head
But Greg told me it's not worth it

50k to get you...
It woulda been rest in peaces
Grab that burner fuck my feelings
Michael Jackson might just beat it

Oh no that's the devil speaking
Heads all fucked up what am I seeking
I was lost but the kid was found
So I thank my God that the boy found Jesus

God made me for a reason
I gotta fulfill my destiny
Grind all day nonstop my guy - work and build your legacy
Demons screaming when I'm sleeping but I got Jesus protecting me
Who God bless no man can curse:
So I roll with the sword respectfully

So I roll with the sword respectfully
Who God bless no man can curse
So I roll with the sword respectfully
