

Thousand Times

JAY1

I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails on fleek
I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails

Cochin' with a hottie while she's bustin' it up
She be backing up her booty whilst I'm rubbin' it up
All the sexy bitches looking when I came for that booking
But one just whispered in my ear like ''Boy I'm loving you up''
And the sauce came fucked when I stepped with the click
Guaranteed you'll get, if you messed with the kid
Used to be a bummy boy but now they stop me for pics
She used to end me on the read but now she sendin' me pics
And I just, chilled back with my whiskey and coke
Give me couple couple years and I'mma cop me a Royce
I don't wanna be that guy thats looking 50 and broke
And I'm tryna' stack a Maza, get that 50 and ghost
Like

And I told you man a thousand times
I'm stacking my money and g I'm writing rhymes
I'm linking your mistress for like the thousandth time
I'm whacking and cutting quick, I just pipe and bounce

I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails on fleek
I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails

You're hating on Jay but I'm chasing my cheddar
You're claiming you're art but you're looking like feathers
I'm linking your chick and she does what I tell her
I'm chopping it properly, I'm doing it better like boy please
I beg you chill the fuck down and if you're talking all that bullshit, nigga
get the fuck out
I'm ringing up Rebecca and she came from Notts town
She just came for one thing, she made me bust and bust' out
I really need to get my money and then try and double it
But Becky wants to get her titties out and keep it bubbling
I'm sorry baby girl but I can't even fuck with it
I'm bonding to the money with my dondies getting profiting
Ooh, you ain't fucking with Jay
Jumped on the track and bro I fucked up the bass
I don't love the people in it but I'm loving the game
Rudeboy you better stay in your place, pussy

I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time

She got her hair done and her nails on fleek
I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails

I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails on fleek
I tell a man a thousand times
You can never come and take this sauce from me
And my baby came just in time
She got her hair done and her nails
