

Shadow Love

Jaya

Ooh yeah

Can you feel me
Out here in the night
Waiting for you
By the moonlight
You belong to someone else
But your dreams belong to me

'Cause I'm the one you turn to
To give you what you need

Shadow love
Slip away into the darkness with me
Shadow love
Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
Close your eyes and step into my dream

Somewhere music plays
On the radio
I whisper to you, baby
Soft and low
And you keep coming back
To the secret rendezvous

'Cause she will never touch you
Or kiss you like I do

Shadow love
Slip away into the darkness with me
Shadow love
Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
Close your eyes and step into my dream

If there were no one around us
We can follow the feelings of our hearts
If we could slow dance together
And hide away forever under the stars

Shadow love
Slip away into the darkness with me
Shadow love
Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
Close your eyes and step into my dream

Shadow love
Slip away into the darkness with me
Shadow love

Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
Close your eyes and step into my

Shadow love
Slip away into the darkness with me
Shadow love
Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
Close your eyes and step into my

Shadow love
Slip away into the darkness with me
Shadow love
Close your eyes and step into my
Shadow love
Slip away until the morning, baby
Shadow love
