

# Together

Jaya

Yeah, woah  
No, no, no, no, no, no, baby  
Wooh-oooh-oooh-oh, yeah  
Ooh, yeah

Now we are together, nothing stands between us  
Love is finally here to stay  
Now that we're together, no need to ever be afraid, no  
I won't ever let you go, now you're on my side

Together, we're gonna make it through this time, hmm  
Now we are together, trust in our emotions and look tomorrow in  
the eye  
See that we're together, now your heart is next to mine, woah-  
woah, oh

So for better or for worse the time has come to say  
Together, babe, our love's the only way

I promise to be your friend and lover, there'll never be another  
I never thought I'd feel this way (Oh, oh, oh, no)  
'Til you came along, swept me off my feet  
Opened the world that I couldn't see  
Gave me the strength so that I'll believe in you and me  
Oh, together

'Til you came along, swept me off my feet  
Opened the world that I couldn't see  
Gave me that strength so that I'll believe in you and me  
Oh, together

(Nothing stands between us) Love is finally here to stay  
Now that we're together, no need, no need  
No need to ever be afraid, no  
(Now we are together) Now that we're together  
(Trust in our emotions) Look tomorrow in the eye  
See that we're together, baby, now your heart is next to mine,  
woah-woah
