

Ain't Want To

JayDaYoungan

I had to walk through hell, I'd rather run through
These niggas talkin' 'bout us, wasn't about you
Make us slide through
I done seen a lot of niggas try to hurt
Shit get real, these pussy niggas try to hurt
The Heros

I'm like, look what this shit done come to
I had to do some shit that I ain't want to
Be careful what you do, that shit come back to haunt you
I had to walk through hell, I'd rather run through
I seen some dark nights, I need a sun too
I seen a lot of shit that you wouldn't want to
Plus my mama got a daughter and a son too
Provide for them, I gotta be the one to

I needed them and they ain't come through
And you won't ever know what I was goin' through
When problems come, I be the main one that they goin' to
When they need help, I be the main one that they run to
So much shit I did that I wish I could undo
Wish I could live a happy life and have some fun too
I heard he trippin', pussy boy, you can get slumped too
They ain't stop when they made drugs, I got a gun too
They like to talk shit but then they like to hide too
The type of shit that make us come and slide through
We catchin' plays, you can pull up like a drive-thru
If you need it then you know we gon' supply you

I'm like, look what this shit done come to
I had to do some shit that I ain't want to
Be careful what you do, that shit come back to haunt you
I had to walk through hell, I'd rather run through
I seen some dark nights, I need a sun too
I seen a lot of shit that you wouldn't want to
Plus my mama got a daughter and a son too
Provide for them, I gotta be the one to

Ain't never get to catch up on a lot of shit I need to
Ain't never ask for shit, don't need you feelin' like I need you
Stay the fuck away from all that fake shit, I can see through
Realest shit I know, depend on them, and they gon' leave you
Fuck what he do, bitch, I'm tryna cop three coupes
You say you keep tools, pussy nigga, me too
They tried to close the door on me, I got my feet through
I fell in love with Percs, not one, I like to eat two

I'm like, look what this shit done come to
I had to do some shit that I ain't want to
Be careful what you do, that shit come back to haunt you
I had to walk through hell, I'd rather run through
I seen some dark nights, I need a sun too
I seen a lot of shit that you wouldn't want to
Plus my mama got a daughter and a son too
Provide for them, I gotta be the one to
