(HeartBeatz on the track)

Percocets keep me relaxed, don't ask where the Xans at

Laid back, but I get to the racks, where the bands at?

All facts, bitch, I'ma save the cap, I just started wearin' hats

All facts, bitch, I'ma save the cap, I just started wearin' hats

They tryna get close to me, might come fuck over me, but I ain't trustin' that

Feel like I ain't where I'm 'posed to be, shit make me suffer bad

Mistreat me, they tend to leave me, I had enough of that

They reach me only when they need me, I had enough of that

On the block, posted with them Glocks, where my brothers at?

He gon' to score, he said he need some more, bring me a couple back

It's gone fo' sho', he gon' hit the store soon as he touch the pack

I smoke that shit that stink and not that shit that weak, I need that mustard pack

Moncler, the Glock up under there, you know I'm clutchin' bad

Blow a bag, know I'm gon' get it back, I be like, "Fuck a tag"

Lil' bitch bad, bought her a Gucci bag, that's 'cause she fuck me back

Yeah, she bad, but that lil' bitch still trash, so I ain't cuffin' that

Codeine make me concentrate, tell me where them meds at

Sometimes I get high 'til I can't find out where my legs at

Ain't under the seat, it's in my reach, that's where the lead at

[?] and sip the lean to push my head back

Percocets keep me relaxed, don't ask where the Xans at

Laid back, but I get to the racks, where the bands at?
