Different emotions  
I'm tryna maintain through it all and stay focused  
That's the reason I'm loaded  
I move in slow motion, I just can't control it  
But fuck it, I'm toting  
Strap bad like I'm sponsored by Trojan  
Sick of being fucked over  
So much weight sitting right on my shoulder  
Cashed out on a new heater  
Bitch, I'm a big dawg, I need two leashes  
Check out my new freezer  
My shit hittin' hard, look like I got blue pieces  
I hopped in a two-seater  
Yeah, this bitch only got room for two people  
Don't fuck with no new people  
They fake as the fuck and they just tryna use people

Yeah, I said fuck that shit they talkin' 'bout, bitch, we gon' send them flames  
Tryna find the pussy niggas claimin' that they wanna bang  
Bitch, we throwin' bullets, we gon' let you niggas throw the slang  
Just 'cause he opened his mouth, open up his fucking brain  
I'm thinking like every day  
I'm tryna send a fuckboy to a better place  
Bitch, stop tryna get away  
We was all in your section today and yesterday  
We snatching your breath away  
To that bag, and my shooters, they takin' your breath away  
These niggas be hella fake  
Hey, the lies don't work, they ain't got shit else to say  
Finna cop me a Hellcat  
I'm up like a bitch, you probably could tell that  
Don't ask where the scale at  
All pass got the pack comin' through, where the mail at?  
They just might smell that  
I smoke it, don't tell nobody I sell that  
They just might smell that  
I smoke it, don't tell nobody I sell that
