

Don't Leave Me

JayDaYoungan

My nigga 2 4 the goat these other nigga's basic

How could she play with me like that?
Girl you know you make me mad
I gave her my all I gave what I had
That's all I knew
For all that we been through
She shopped for a winner
We Riding down a bumpy road & found out some over things
She took over my feelings
Think about her every minute
She play me like a sentence
I just need sexual healing
She was with grateful from the start
She kept it gangster, played her part
She feeled my broken heart
She'll go to war for me
Let her hold my heart for me
I'll put my life on the line
She use to catch that iron pump
She'll probably Do some time for me
Said she'll do anything for me
Would I ride I don't know
On go, I'll blow put it on in the sky
Some people in love
I'm different like a drug
I just don't know why

We done been through the most
I just can't let go
I be telling her no
She be telling me fine
She my light when its dark
Got the key to my heart
And I hate when I see her cry
Why she crying?
Why she lying?
Why she crying?
Why she lying?
Why she came & waste my time
She broke my heart
She got up and left
I just don't know where we went wrong
She took the wave
She took wave

She suppose to be at my side to cross the seas
She suppose to be at my side to cross the seas
She suppose to be on my arms on my sleeves
She suppose to be on my arms on my sleeves
