Hate Me

JayDaYoungan

It's time for elimination, I feel like they tryna use me
Everyday it’s to the basics, if you want it, gotta prove it
Tryna see how far I make it, god blessed me with this music
Love my life, they wanna take it, so I'm strapped up with that tooly
I came up, that's why they hate me and wonder how I do it
I swear you ain’t gotta chase me, my feelings I been losin'
Feel like no one can replace me, but you already knew it
I'm the realest, don't mistake me with all these other goofies

It's hard to keep a smile on everybody face
I try my best to keep them happy each and every fucking day
I swear my heart too good for me to feel like I done been betrayed
I live by loyalty and all my secrets I take to the grave
Everything I love is think 'bout when I get on stage
Don't get a fuck 'bout what they think about, I’m gettin’ paid
Next time you see a pussy nigga, spit up in his face
I don't do disrespect, show me you step, bring out them K’s

It's time for elimination, I feel like they tryna use me
Everyday it's to the basics, if you want it, gotta prove it
Tryna see how far I make it, god blessed me with this music
Love my life, they wanna take it, so I'm strapped up with that tooly
I came up, that’s why they hate me and wonder how I do it
I swear you ain't gotta chase me, my feelings I been losin'
Feel like no one can replace me, but you already knew it
I'm the realest, don't mistake me with all these other goofies

My brother on the run, but everyday we still posted
Feel like they tryna use me, that's the reason I stay loaded
The Xans and the Perkys yea it always have me nervous
Yea I stay out the way, you fuck with me, I'm castin' curses
My momma been told me 'bout you niggas
She told me keep that tooly, keep you bitches out my business
We had to move our butt and yea the streets was gettin' ridiculous
Now we on Seven, don't think we moved out the trenches
I gotta get this money, I got too many dependants
Two times FG, yea bitch this a livin'
I gotta get this money, I got too many dependants
Two times FG, yea bitch this a livin'

It's time for elimination, I feel like they tryna use me
Everyday it's to the basics, if you want it, gotta prove it
Tryna see how far I make it, god blessed me with this music
Love my life, they wanna take it, so I'm strapped up with that tooly
