This shit can get dangerous

Ever since I was I was kickin in doors
Live or die that's how my life goes
Been in the trenches this all a niggas know
I'm in the streets ain't got nowhere to go

I call that draco Jackie Chanthe way its kicking
I was born in the streets so I was automatically in it
Step on that boy
Had to show them bitches I was with it
Stay on yo pivot
Any minute nigga you could get it
When its deep boy
This shit can get dangerous
That boy was talkin shit
Left him on the block banged up
Bitch You say you want smoke
Now yo life in danger
All my life I been a killer
Nobody can tame us
Your life is in danger

Bitch I'm sinner
I might kick in the jungle
I stay posted with guerillas they'll come get yo mama
They fiending for a body just sent em some cover
I just bought me a new drac
I found out what's my faith
We bend the corner
We hop out with them things out
Them one on one we had to cross them out
We kept the same guns
Nah we swap em out
They say I'm op boy
Let swamp boy
I swear this a Drac
The way this Jackie chan kicking
We really kicked her out
We dropped her off
Ain't no witness
Told them bitches if you looking come and get it
We put a 6, 4 shoots to that boy fitted

I call that draco Jackie Chanthe way its kicking
I was born in the streets so I was automatically in it
Step on that boy
Had to show them bitches I was with it
Stay on yo pivot
Any minute nigga you could get it

He heard the flag he gone get it
We strapped up with them glocks
Gone catch a shot you think I'm slipping
Riffle came with some stocks
Let off some shots ain't no missing
Give a nigga the business
Bitch we flowing through yo city
We banging K's
We got the drop on where you stay
My step I ain't gone play
2 too neck 2 too his face
Bust yo fade
Ain't ya'll both gone do the same
Two clips if that's what it take
That gangster shit who tryna bang

That nigga know he in danger
We sliding were they hiding
Tryna leave em all banged up
Stop passing all them words
My clip curf like a hanger
He speaking on my name
Bust his brain now he famous
