I fall down and get back up, it just teach me a lesson
Take medication on the daily just to keep me from stressin'
Say my prayers to the Lord, he keep sending me blessings
So if I die today it's safe to say I will be a lesson
No I'll never change, gon' forever be reckless
Fuck a nigga he ain't gang, he can't come in my section
I keep one up in the brain, gon' see who really steppin'
Me and you just ain't the same
Me and you just ain't the same

Clutchin' that cutter, just me and my brother
You want me come get me, I stay with that thang
Comin' my way, you try to come play
I ain't missin' your face, catch one to the brain
Ain't sparin' no niggas, draw down with them pistols
Gon' see who official, since you playin' games
Too many bitch niggas, they internet killers
On Insta and Twitter, we just ain't the same

No I'll never change, free my brothers I miss 'em
How I'm feelin', fuck the fame, I just wanna count millions
Fuck a nigga, he ain't gang, he can't run with my niggas
Fuck a nigga, he ain't gang, he can't run with my niggas

Came up from nothin', I went through the struggle
I know how it feel when you ain't got shit
Goin' through problems, no chance for a scholarship, no dollas
I just found [?]
Get on my knees and ask "Lord please can you forgive me for all
of my sins?"
Don't fuck with the Youngan, you know how I'm comin'
We oppin' and runnin, and then we gon' split

I fall down and get back up, it just teach me a lesson
Take medication on the daily just to keep me from stressin'
Say my prayers to the Lord, he keep sending me blessings
So if I die today it's safe to say I will be a lesson
No I'll never change, gon' forever be reckless
Fuck a nigga he ain't gang, he can't come in my section
I keep one up in the brain, gon' see who really steppin'
Me and you just ain't the same
Me and you just ain't the same
