

Nobody Else

JayDaYoungan

I fell out and I got right back up again, I tell 'em, "Look at me now"
They hate that, that I can, them shooters shoot for me now, like they from Afghanistan
They love that I be around, and if they hate, they ain't your friend
And that's when I look to my right and left
It's me all by myself (By myself)
I'm tryna dodge the day that I might need somebody else
I just need my lean and my fifteen and some weed I can inhale (Oh yeah)
When I was bleeding with this Nina, I ain't seen nobody else (Nobody else)

Fell down, but I got back up, ain't need backup
They think I slacked up, until I got my fuckin' racks up
My bitch act up, I damn near smacked her, I might subtract her
Don't stress me, bitch, come and sex me, let me beat your back up (Let me beat your back up)
Turn her around, like when I dick her down, now she got a wet butt
Turn to the side, like when them homicide, she got the best guts
To all them rap niggas, just know I'm still with it, tell 'em to rest up
Since a lil' nigga, been in that field, nigga, been tryna stretch somethin'

Right now I need you
Right now I need you
Right now I need you
Right now I need you

I fell out and I got right back up again, I tell 'em, "Look at me now"
They hate that, that I can, them shooters shoot for me now, like they from Afghanistan
They love that I be around, and if they hate, they ain't your friend
And that's when I look to my right and left
It's me all by myself (By myself)
