I done been stuck all alone with no one to call to tell them my problems

I know some real life shottas that'll pull up and pop it if we got a problem

I love whoever around me, look them in the eyes and I tell 'em I got 'em

I'm in that water it feel like I'm drowning I'm askin' the Lord could he stop it

I'ma go get it for me and my family cause really ain't no other option

City to city they love me, I can't go in public it's hard to go shoppin'

If you want cancer we can't do no talkin' we pull up and we got ta drop 'em

I ain't never stoppin' they ask when I'm droppin' I tell 'em sit back and keep watching

These niggas watchin' but they can't stop shit, you on that opp shit, that ain't how I'm rockin'

These niggas watchin' but they can't stop shit, you on that opp shit, that ain't how I'm rockin'

I get the bag then I'm back on the road, what you make in a month I make for a show

Cut off my bitch she wanted my bro

Cut off my dawg cause he playin' with his nose

Cousin was playin' with a pole

All of my uncles they playin' with the stove

I use to pray that I play in pros but I was too busy somewhere on the go

I remember days I ain't have shit, use to ride round with a whole lot of sticks

I still do bitch don't forget

Fuck over you and whoever you with

I'm two steps from being rich

Just left L.A I was full of that shit

State to state flight can't be missed cause if I do I'm gon' be pissed

I always just stay to myself, than ask for help tryna survive

These niggas crossed the line catch you slippin' blow yo mind..
