

Spray For Me

JayDaYoungan

I done be on some Holy Water shit
The Heroes
There's so much shit be goin' on, I just stay out of the way
Shoutout to KP for that beat (Hope you gon' pull through for me though)

I say I hope that they don't play with me
They know I keep the K with me
I'll make a nigga spray for me, for real
I hope they don't plan on takin' me
No, you won't end up facin' me
'Cause I'ma make you lay down with the steel
I had dreams of my opps chasin' me
I woke up tryna spray the heat
And that's when I realized the shit was real
Bitch, you could stay the fuck away from me
'Cause I don't need no snakes with me
Don't let 'em bite you twice, you might not live

Two guns around my waist, I'm on that up shit
Lookin' for them pussy niggas movin' on that fuck shit
All I'll do is call Chapo, and he pull up quick
Fuck .38s, two twenty-threes, that's what we put you up with
It's up, bitch, he got me fucked up, he think he gon' play on me
Put the stick all in his shit and let that nigga taste on it
We lay on 'em, if he come out, we tryna put the K on 'em
We wait all night, but it's on sight, might pull a broad day on 'em
Was in the trap before the rap, them pussy boys know where I'm at
I call 'em back because this strap be tryna make you take a nap
I don't say cap, 'cause I don't cap, I rather blow off a bitch cap
Creep from the back, I'm in all black, he might just catch a heart attack

I say I hope that they don't play with me
They know I keep the K with me
I'll make a nigga spray for me, for real
I hope they don't plan on takin' me
No, you won't end up facin' me
'Cause I'ma make you lay down with the steel
I had dreams of my opps chasin' me
I woke up tryna spray the heat
And that's when I realized the shit was real
Bitch, you could stay the fuck away from me
'Cause I don't need no snakes with me
Don't let 'em bite you twice, you might not live

And I swear I don't know what's safe for me
These pussy niggas be hatin' me
But they did that before I signed the deal
Through all the shit it, it ain't no breakin' me
'Cause that's the shit that's makin' me
Bitch, I was taught to get it how I live
No talkin' when we bump heads, stand on the shit you sayin'
Don't do no plan, tryna step on you and your mans
Cap the shit, no ban, and I ain't gotta use my hands
The last nigga who ran, bitch, they gon' make me drop them bands

I say I hope that they don't play with me
They know I keep the K with me

I'll make a nigga spray for me, for real
I hope they don't plan on takin' me
No, you won't end up facin' me
'Cause I'ma make you lay down with the steel
I had dreams of my opps chasin' me
I woke up tryna spray the heat
And that's when I realized the shit was real
Bitch, you could stay the fuck away from me
'Cause I don't need no snakes with me
Don't let 'em bite you twice, you might not live

Oh-oh, I'm tryna spray my shit for real
You know they plannin' on takin' me
But man's about to spray for me
But man's about to spray for me, for real
And I was really chasin' cheese
Yeah, I was really chasin' cheese
And I was in the trap before the deal
I don't know why they hatin' me
But I'ma keep the K with me
We run up in your face with the steel
