

Without You

JayDaYoungan

Asking myself on a daily how can I live without you
I thrilled about our sex but more in love with we go through
Look how far we have been
If I let you leave right now I swear that I'll be a damn fool
We done came from broken hearts but we done healed together
I don't need a fence but we done build together
You put that jacket down when I done went through the weather
This loyalty so deep I don't know if it can get better
And I'm like oooh I can not live without you
Don't know what to do without you
And I'm like ooh what I would without you
I can not live without you

I can not live without you with all the shit that we been through
I swear the love is so deep if it wasn't deep
We would have been through
What I be wrong if I told the world that I was deep in love
I can I admit without your love that I'm not strong enough
On my mind its still but your love is my conscious
Sometimes I feel like cheating but I go against my conscious
Step out my side when everyone was giving up
Got me thinking to myself like why the fuck you ain't
Givin up
I was lying I was cheating I done been caught so many times
And now I'll change I'ma do right
I said that many times
I threw my key in the ocean I hope no one don't find it
I was lost without my heart but you're the one that found it
We make love until the sun go up
And we made love till the sun come down
And we make love until the sun go up
And we make love until the sun come down

Asking myself on a daily how can I live without you
I thrilled about our sex but more in love with we go through
Look how far we have been
If I let you leave right now I swear that I'll be a damn fool
We done came from broken hearts but we done healed together
I don't need a fence but we done build together
You put that jacket down when I done went through the weather
This loyalty so deep I don't know if it can get better
And I'm like oooh I can not live without you
Don't know what to do without you
And I'm like ooh what I would without you
I can not live without you

I wanna tell you the truth
I never had this feeling until the day I met you
You make me fall inlove
With the things that you do
Your body like a drug I'm addicted to you
And if you need me you know ima slide through
I feel like I'm close to heaven everytime I'm by you
Fuck them hoes I let them know
They better not try you
You should already know
That I got you

And she be on it
Told her she bae you got it if you want it
She was down when I ain't have nothing
So to me you'll always be something

Asking myself on a daily how can I live without you
I thrilled about our sex but more in love with we go through
Look how far we have been
If I let you leave right now I swear that I'll be a damn fool
We done came from broken hearts but we done healed together
I don't need a fence but we done build together

This loyalty so deep I don't know if it can get better
And I'm like oooh I can not live without you
Don't know what to do without you
And I'm like ooh what I would without you
I can not live without you
