Tell me what you on
Girl, I'll get you whatever you want
Gucci, Chanel, or Louis Vuitton
My heart so cold, you the one make me warm
Don't never change, I know you the one
Walk through the rain, we can go through the storm
When I'm with you, all my pain feel numb
But when you leave, I need you in my arms (I need you in my arms)
Can't no one take your place
You make me smile when I look in your face (When I look in your face)
From the very first day
I knew you were special, I made you my bae (I made you my bae)
Got a bond they can't break
When I'm with you, girl, I feel so safe
They want your place, so them bitches gon' hate
Don't never leave, girl, I want you to stay (Girl, I want you to stay)

When I'm with you, I feel so safe like my gun on my waist
I call her my baby, she crazy, we might just got one on the way
Ain't got no time for no Plan B
Let's take us a trip to Miami
You my trophy, fuck the Grammys
Girl, hold me by my hand please and don't go
You ain't by my side, how I'm 'posed to sleep at night?
Need you on side of me waking up, yawning
Yeah, you got it, girl, that's if you want it
Would you slide for me? Would you be on it?
Don't lie to me, girl, just be honest
I'm sorry that I did you wrong, don't leave me alone, tell me what you on

Tell me what you on
Girl, I'll get you whatever you want
Gucci, Chanel, or Louis Vuitton (Or Louis Vuitton)
My heart so cold, you the one make me warm
Don't never change, I know you the one
Walk through the rain, we can go through the storm
When I'm with you, all my pain feel numb
But when you leave, I need you in my arms (I need you in my arms)
Can't no one take your place
You make me smile when I look in your face (When I look in your face)
From the very first day
I knew you were special, I made you my bae (I made you my bae)
