

Second

Jayden Bartels

I'm almost there, but not quite
I try hard, but it'll never suffice, no
Cause second best is my name
I always place second in this game, of love
Cause once you find out that she's available
That's when you hang up the call with me
That's when I find out I was never your number one
I was just your next best option really

So you can just run to her, that's fine
I'll just take my trophy for second in line

That's just what happens every time
The second trophy's always mine
And I
Always feel so left behind
But don't worry
Don't worry, I'll be fine

You ask me if I'm alright
It's only cause you don't want to fight, oh
You know you can't place her first
Without me ending up hurt, no
You say just cause we're not happening now
Doesn't mean we won't happen later
So you want me to wait around
Well, that seems like a pretty big favor

So you can just run to her, that's fine
I'll just take my trophy for second in line

That's just what happens every time
The second trophy's always mine
And I
Always feel so left behind
But don't worry
Don't worry, I'll be fine
Don't worry
I'll be fine
