

Mm-mm, mm-mm

Hey, hey

If you're playin', would you let the dog eat the snake?
You pulled your ribcage in as you left
Lay your bones, eat the one anxiety made
Breathe in my toxins as your thoughts fade away
So, girl, clean your smile, I'll snatch all your time
You're dead or alive, you're his or you're mine
But are you the truth? I think you're a lie
I'll finesse your body and destroy your mind
What's it take to make you mine?
Wanna take my baby girl
Take this soft and throw it down your throat
Take it slow and don't be consoled
